

CONTACT INFORMATION	Department of Mathematics Bilgi University Emniyetetepe, Kazım Kar. Cd. No: 2/13, 34060 Eyüpsultan/İstanbul	<i>E-mail:</i> orsan.kilicer@bilgi.edu.tr <i>Phone:</i> 05316521381 <i>Website:</i> okilicer.github.io
EDUCATION	• Ph.D. in Mathematics, September 2017-May 2025, Texas A&M University (TAMU), College Station, TX, US Dissertation Title: Higher Order FEM for Surfaces Stokes Problems Relevant courses: • STAT 624: Database & Comp Tools Big Data • STAT 639: Data Mining & Analysis • MATH 664: Topics in Mathematical Data Science • MATH 679: Math Algorithms & Implements • Other Courses: Numerical Methods in Differential Equations, Introduction to Ordinary & Partial Differential Equations, Analysis for Applications, Combinatorics, Real Variables I, II, Differential Geometry, Conservation Laws • M.Sc. in Mathematics, 2013-2015 TOBB Economics and Technology University, Ankara, TURKEY • B.S. in Mathematics, 2009-2013 TOBB Economics and Technology University, Ankara, TURKEY	
RESEARCH INTERESTS	• Computational Mathematics: Finite Element Method (FEM) • Applied Mathematics • Machine Learning (Serious Hobby, Serious Research)	
IMPORTANT CERTIFICATES	• AWS Certified Machine Learning-Specialty, Date: Oct 29, 2023 • AWS Certified Cloud Practitioner, Date: Dec 26, 2022 • Coursera: Machine Learning, Date: December 13, 2019 • Udemy: The Ultimate MySQL Bootcamp: Go from SQL Beginner to Expert, Date: Nov 27, 2023.	
CODING SKILLS	1. Python (a) Confident: Tensorflow, Sklearn, Matplotlib-Seaborn, Pandas, Numpy, Re. Some Examples: • NLP-Classification problem: Transfer Learning using BERT(e.g., Disaster Tweets on Kaggle). • Time Series by Using LSTM • Classification by using XGBoost(others, too) for Titanic problem. • Classification-Computer Vision Problem by using CNNs (b) Familiar: PyTorch, Plotly, Scipy, Sympy, Fenics (FEM), Cvxopt, Ngsolve (FEM) 2. MySQL 3. C++: Deal.ii (FEM) 4. Git	

- GRANTS, HONORS, AND AWARDS
- Summer research grants from NSF for the years 2020-2025, and research grant for Fall 2022, Supervisor: Dr. Alan Demlow, Texas A&M University (TAMU) and CoChair Dr. Andrea Bonito, TAMU
 - Graduated from M.Sc. in Mathematics at TOBB Economics and Technology University with High Honor Diploma 2015
 - Research Fellowship of Scientific and Technological Research Council of Turkey (TUBITAK) as a M.Sc. Researcher Under 1001 program, 2013-2015
 - Graduated from B.S. in Mathematics at TOBB Economics and Technology University with High Honor Diploma 2013 as the top ranking student
 - Academic Scholarship for Undegraduate in Mathematics at TOBB Economics and Technology University, 2009-2013
- EMPLOYMENT HISTORY
- Assistant Professor for Spring 2026, Bilgi University, Turkiye
 - MATH 373: Numerical Analysis
 - MATH 304: Numerical Methods for Engineers
 - MATH 452: Partial Differential Equations
 - Part Time Instructor for Fall 2025, Bilgi University, Turkiye
 - MATH 115: Abstract Mathematics
 - MATH 420: Computational Mathematics
 - MATH 259: Linear Algebra and Differential Equations
 - Part Time Instructor for Fall 2025, Istinye University, Turkiye
 - ITB 034: Advanced Data Analysis
 - EASF 201: Statistics for Business
 - GCA 205: Gastronomy Mathematics
 - Super Instructor of Record¹ (IOR) for Spring 2025, and two times IOR for Fall 2022 and Fall 2024: Math 142, Business Calculus, Texas A&M University, US
 - September 2017-May 2025, Teaching-Research Assistant, Texas A&M University, US. Python Related Assistantships: Math 609: Numerical Analysis, Math 151-152 Engineering Mathematics
 - September 2014-September 2017, Research Assistant, Middle East Technical University (METU)
 - September 2013-September 2015, Research Assistant, TOBB Economics and Technology University (TOBB ETU)
- PAPERS AND BOOK CHAPTER
